Dear Parents,

Holiday Club 2021

*It is with heavy heart we have had to make the decision to close our holiday club for this year. We understand for working parents this will be a frustrating situation. With the recent rise in case's locally and children and families having to isolate the likelihood of us having to shut at short notice is growing.*

*Our staff that are booked to work during the holidays are also struggling with isolating and shielding which has left us short of staff available to work. To try and give everyone needing childcare time to find alternative arrangements we have made the decision now and not in a week's time when either we have children isolating or not enough staff to run the club. Our decision is for the safety and well being of our families and staff and has not been made without lots of thought. I hope everyone will understand our reasons for this difficult decision which we have not made lightly.*

*We will be giving a full refund which can either stay on your account as a credit or BACS payment transfer, please supply your bank details along with the account name in full for us to do this.*

Yours sincerely
